## WARRANT FOR TOWN MEETING

### STATE OF NEW HAMPSHIRE

---

*To the Inhabitants of the Town of Rollinsford in the County of Strafford, in said State, qualified to vote in town affairs:*

You are hereby notified to meet at Town Hall in said Town, the fourteenth day of March next, at ten o'clock in the forenoon, to act upon the following subjects:

- ART. 1. To bring in your ballots for Town Clerk, Town Treasurer, One Selectman and Overseer of the Poor for a term of three years, one Road Agent and Chief of the Fire Department.
- ART. 2. To choose all other necessary Town Officers for the ensuing year.
- ART. 3. To raise such sums of money as may be necessary too defray town charges for the ensuing year and make appropriations for the same.
- ART. 4. To see if the Town will vote to allow a discount of 2% on all taxes of the 1950 levy, except poll taxes, paid on or before September 1st. next.
- ART. 5. To see if the voters of the Town of Rollinsford will authorize the Selectmen to borrow money in anticipation of the collection of taxes.
- ART. 6. To see if the Town of Rollinsford will raise and appropriate the sum of \$500.00 to build a two-tenths of a mile gravel road from Crockett Crossing toward the residence of George W. Howe. (By Petition).

- ART. 7. To see if the Town of Rollinsford will vote to have adopted the non-partisan ballot system for the election of all Town Officers as are now presently elected by ballot. (By Petition).
- ART. 8. To see if the Town of Rollinsford will vote to have no person allowed to hold more than one office, this to include Town Officers, Board of Education, Trusteeships of the Town, or appointed officers. This to be effected immediately, allowing all present elected officers to complete their term of office.
- ART. 9. To see if the Town will vote to have insurance schedules for all Town Property listed in the Town Report each year as follows: Property description, value, Terms of Policy and amount of Premium Paid. All Town Buildings and equipment, wherever possible, to be based on a five year term, contract to effect maximum savings. (By Petition).
- ART. 10. To see if the Town will vote to order the Selectmen to make every reasonable effort to bring back to the Town of Rollinsford the districts now paying School Tax to the City of Dover. A report of this action is to appear in Town Report for the year ending December 31, 1950. (By Petition).
- ART. 11. To see if the Town will vote for the following:
1. To give the Fire Chief authority to inspect water hydrants at any time.
  2. To raise and appropriate the sum of Fifty Dollars for the purchase of a water gage for the purpose of testing

hydrants, such gage to be of the type not requiring passage of water.

3. Fire Chief to make at least two complete checks of each hydrant yearly and report to the selectmen, authorizing payment of bill for hydrant service.
4. No water shall be shut off from any hydrant for a period exceeding one hour without first notifying the Fire Chief by phone confirmation of which is followed by written notice describing the reason, date and duration of inactive service properly signed (for record purposes.) (By Petition).

ART. 12. To see if the Town will vote to raise and appropriate a sum of money for the purchase of a Water Tank Truck, having a capacity of approximately one thousand (1000) gallons, for the use of the Fire Department. The Fire Chief is to have supervision of this purchase which is to be paid in three (3) equal annual installments. (By Petition).

ART. 13. To see if the Town will vote to have all Town Records audited at least every three (3) years by a registered auditor. If a new Treasurer is elected to office, an audit shall be made at the time of transfer of records to the new treasurer. Auditor must be selected by mutual choice of the outgoing and incoming treasurer.

(By Petition).

ART. 14. To see if the Town will vote to have all expenditures of the Town, or by any Department of the Town, in excess of \$35.00 (thirty-five dollars)

submitted to open bids which shall be published in at least two local newspapers for two consecutive issues. Such bids requested shall be in the form of detailed contracts with complete specifications. After the awarding of the contract to the proper bidder all bids shall be kept on file for the auditor's periodic examination.

(By Petition).

ART. 15. To transact any other business that may legally come before said Meeting.

Appropriations will begin at eleven (11) o'clock sharp.

Given under our hands and seal, this twenty-seventh day of February, in the year of our Lord, Nineteen Hundred and Fifty.

HERBERT COLE,  
EDWARD J. HUDON,  
ARLINE G. STOCKDALE,

*Selectmen of Rollinsford.*

Respectfully submitted,

CHARLES W. JACKSON,

*Town Treasurer.*

The undersigned auditors of the Town of Rollinsford accounts have examined the books of the Selectmen, Town Treasurer, Town Clerk, Tax Collector, Highway Agent, Trustees of Public Funds, for the year ending December 31, 1949, and find all cash entries sustained by appropriate vouchers and castings correctly made and footings agree.

GERTRUDE P. TOUSSAINT,  
ALFRED F. DUBE,

*Auditors.*

## REPORT of SUPERINTENDENT of SCHOOLS

---

TO THE SCHOOL BOARD AND CITIZENS OF ROLLINSFORD:

In presenting this my third annual report as Superintendent of your school, I will discuss the following subjects: Personnel; Physical Facilities; School Enrollment and Census; Transportaton; Curriculum, Books and Supplies.

This report will be followed by a report of the Principal, Mr. Lewis Hatfield.

### PERSONNEL

Since the last annual report, it has been necessary for the School Board to employ a principal and two teachers who were new to their respective positions.

To replace Mr. James McKeon who accepted an assistant principalship in one of the elementary schools in Manchester after having done excellent work as principal and teacher of 7th and 8th grade subjects for two years in the Rollinsford Grammar School, the Board selected Mr. Lewis Hatfield of Newburyport, Mass. Mr. Hatfield is a graduate of the Salem Massachusetts Teachers' College and has completed the requirements for a Masters' Degree in Education at Boston University. He had previously taught in the elementary grades of Blandford, Mass. and Agawam, Mass. for a period of seven years. He was an officer during a part of the four years that he was in the United States Navy.

To teach 7th and 8th grade social studies and manual training, Mr. Ralph C. Steeves of Saugus, Mass. was selected to replace Mr. Robert Dolph who resigned last June to accept a position in Massachusetts. Mr. Steeves is a graduate of Boston University and under its supervision did practice teaching at Melrose, Mass. High School. He

served in the United States Army for three and one-half years.

To teach the 5th and 6th grades, in the place of Mrs. Jean Schultz who accepted a 6th grade position in Durham, the Board selected Miss Mildred Burns of Dover. Miss Burns is a 1949 graduate of the University of New Hampshire where she studied special elementary work as a graduate student during the 1949 summer session.

We were particularly fortunate to have Miss Anne Brown, Miss Bernice Dougherty and Miss Edna Ordway return to their respective positions with the children of the first four grades. Mrs. Martha Evans of Durham has continued her excellent work of the previous year on a one-half day per week basis with the 7th and 8th grade girls in cooking and sewing.

Other members of the school personnel are as follows: the school nurse, Mrs. Vina Shaw of Dover who also serves as school nurse in St. Joseph Elementary School of Rollinsford, in the elementary school of South Berwick, Maine and as a Community Nurse in Rollinsford and South Berwick, Maine.

Mrs. Edward Bureau who plans, prepares and serves the Federally Aided "type A" school lunches to approximately seventy of the children who are transported to school and who are unable to return to their homes at noon for hot meals.

Mr. Edward Bureau who has the responsibility of heating and cleaning the school building as well as caring for the school grounds.

#### PHYSICAL FACILITIES

The School Board has been alert to maintain and improve the physical condition of the building and the playground. During the past year, the more important repairs and improvements have consisted of re-covering various areas of the floor with asphalt-tile, repairing sev-

eral of the electric circuits throughout the building and filling and leveling some of the rougher areas of the playground.

The school building is in very good condition; the new swings and slide which were installed on the playground as a result of appropriations made at the last district meeting were a welcome addition to our recreational facilities. It is hoped that these items may be complimented with teeter-boards and a horizontal ladder before next fall.

#### SCHOOL ENROLLMENT AND CENSUS

The total number of pupils in the Rollinsford Grade School has continued to increase; there were 161 pupils registered last September as compared to 154 in September of 1948 and 139 in September of 1947; enrollments by grades is shown in Principal Hatfield's report. The census, including all children in Rollinsford from birth through 15 years of age shows 465 children in those age groups in the fall of 1949 as compared to 452 in the same age groups in 1948.

The number in each of the age groups as of Sept. 1949 is shown in the following table:

Age as of Sept. 1, 1949	No. of children	Age	Number
Less than one year	32	8	34
1	34	9	21
2	30	10	27
3	27	11	35
4	31	12	33
5	25	13	39
6	31	14	30
7	16	15	20

The number of Rollinsford pupils attending high school has increased since last year by 3 pupils. The total number of tuition pupils in Berwick Academy and Dover High School this year is divided as follows:

	Grade	9	10	11	12	Total	Rate
Berwick Academy		1	1	6	3	11	
Dover High School		19	11	10	11	51	181.02
Total		20	12	16	14	62	

With a total of only 14 seniors this year in high schools and a total of 25 and 2 in the 8th grade of the Rollinsford Grammar School and St. Joseph School respectively, it now appears that the total number of tuition pupils will increase to approximately 80 for next year. With a probable increase in tuition at Dover High School for 1950-51, the total tuition charges are likely to *increase* by at least \$5,800.00

#### TRANSPORTATION

One of the greatest changes in the operation of our school system during the past year was the change in transportation. It is now possible, as a result of negotiations made as of January, 1950 by the School Board with the new transporter, Mr. Armand Letarte of Salmon Falls, for the high school pupils to be transported to Dover High School before the elementary pupils are brought to the grade schools and for the elementary children to be returned to their homes earlier in the afternoon. This change has eliminated the necessity for elementary children to arrive at school a long time before school opens in the morning and to leave immediately upon the close of school in the afternoon. The school day is now of the same length as it was before the change in schedule but it closes fifteen minutes earlier in the afternoon; transported

children are away from their homes at least one hour less each day than previously.

### CURRICULUM, BOOKS AND SUPPLIES

The Educational Policies Commission of the National Education Association of the United States and the American Association of School Administration in a study of the purposes of education in American Democracy developed a series of objectives grouped around: Self-realization, Human Relationship, Economic Efficiency and Civic Responsibility. As the school program cannot be divided into these four quarter sections, we continue with the same general subjects in the elementary schools, but aim at the objectives as implied in those sections. Ability to gain information through reading and to express ideas through writing and speech is one of the chief subject matter objectives in the elementary school.

Through a well organized and directed school life, the pupil gains much experience in human relationships; civic responsibility is taught consistently throughout the school career of every pupil. Participation is encouraged in group games, committee work and holding of class offices as well as in the many other activities of the daily life of the pupil in school. Continued cooperation between the home and the school is necessary to obtain the greatest results in the realization of our mutual objectives, and each agency should understand the methods and plans of the other for attaining those objectives. Parents should recognize and encourage the experiences in the lives of children which occur outside the school which tend to foster desirable physical, emotional, spiritual and mental growth. Such experiences, under proper guidance, supplement and extend the school experiences.

Our budget allowance has provided for a continuation in the purchasing of new textbooks and other necessary teaching aids. Our teachers are alert to keep each pupil work-

ing up to his capacity and do not lose sight of the fact that we are primarily interested in the child rather than in the implements which we use for his benefit.

## HEALTH

The total health program of our school continues to include an expanded lunch program for transported children, under the capable direction of our cook and operator, Mrs. Margaret Bureau, which takes advantage of Federal donations of food and of Federal allowances of nine cents toward each meal we serve. During the past year, considerable quantities of the following foods have been received at no direct cost to the local budget except for transportation; potatoes, apples, tomatoes, tomato paste, honey, peaches, cheese, butter, peanut butter.

In conclusion, I wish to state that it is only through the understanding of the value of education and the realization that good education represents one of the best investments, that we have an outstanding public school in Rollinsford.

Appreciation is expressed to the members of the School Board, the Faculty, the pupils and all other members of the Community who have helped to make for a better school.

Respectfully submitted,

JONATHAN A. OSGOOD,

*Superintendent of Schools.*

February 1, 1950

## REPORT OF SCHOOL PRINCIPAL

---

TO THE SUPERINTENDENT OF SCHOOLS, MEMBERS OF THE  
SCHOOL BOARD AND CITIZENS OF ROLLINSFORD:

It is with pleasure that I submit to you this annual report as Principal of the Rollinsford Grade School for the period beginning January, 1949, extending to January, 1950.

### ENROLLMENT

The Rollinsford Grade School began its 1949-1950 school year on Tuesday, September 7, with an enrollment of 161 pupils distributed as shown on the accompanying enrollment data sheet. There has been a slight fluctuation of the number of pupils in the school due to the transfers both into and from the school. As of the present date the enrollment is 166.

### INSTRUCTION

The instruction and the curriculum have been carried on as suggested by the State Department of Education while allowances have been made so that teachers may vary their work according to the requirements of their respective groups of children.

Departmentalized work is being carried on this year as has been done in the past in the upper grades. Mr. Steeves has been assigned the teaching of Social Studies and General Science in the upper grades. Mr. Hatfield has been assigned the teaching of the English and Mathematics for the corresponding groups. This plan of work has been carried on smoothly and with a minimum of program friction.

It is altogether proper, at this point, to interject something concerning the philosophy under which the teachers of the Rollinsford Grade School are proceeding.

The objectives of the current year are somewhat as follows:

- (a) To provide for total growth and development of all pupils
- (b) To determine the learning capacities of the individual pupils and to adjust the instruction to the individual differences and the needs of the pupils
- (c) To provide for an effective learning program for all pupils

---

ENROLLMENT DATA FOR THE  
ROLLINSFORD GRADE SCHOOL, 1949

Teacher	Enroll- ment by Grades	No. pupils per Teacher	No. Boys	No. Girls	Totals
Anne Brown	1	20	10	10	20
Bernice Doherty	2	12	8	4	12
	3	17	10	7	17
Edna Ordway	4	24	11	13	24
Mildred Burns	5	15	5	10	15
	6	15	5	10	15
Ralph Steeves	7	33	16	17	33
Lewis Hatfield	8	25	17	8	25
Totals		161	82	79	161

- (c) To have the individual develop mental, moral, physical and spiritual attitudes to the best of his ability in order to enable him to help himself live a happy, wholesome life as a respected member of his community.

## AUDIO-VISUAL INSTRUCTION

This year as in preceding years the staff is making a wide use of the various devices that are at its command in the furtherance of education by means of the audio-visual methods.

A large number of films have been booked from the Audio-Visual center of the University of New Hampshire. These films cover a variety of subject matter and all have been correlated with the particular subject matter that is being presented at the time of the showing of the films. Thus far this year, we have had films dealing with problems that are to be found in the fields of Geography, History, English, Mathematics, as well as in the field of guidance. All have been well received and have been of invaluable aid in the presentation of material.

It is fortunate as well that the school possesses a strip film projector as well as a limited number of films that are of some use with this machine.

Coincident with the presentation of material via the previously described methods some use has been made of the record player and radio that was presented to the school last year. It has been found that some of the more worthwhile radio programs via the various networks have been of great help and of much interest in the solution of some teaching problems.

It might be suggested here that one other aid in this type of instruction might be obtained. This is the so-called opaque projector. This would enable the presentation of many of the excellent pictures that are to be found in the magazines and in similar types of printing.

It is felt that although the cost of this type of program is somewhat high, that the ultimate results obtained by this method of instruction are more than worth the price that has been expended in the presentation thereof.

## FINE ARTS

It is regrettable that the Rollinsford Grade School does not have access to the services of a part-time instructor in Art as well as those of a part-time instructor in music. It is felt that instruction in these studies would be immeasurably improved if these services were available. This is not a criticism of the results that are being obtained by the present methods of teaching both art and music. However, it would appear that the services of two teachers who had been exclusively and professionally trained in these fields would result in greater interest and appreciation of these fields.

This instruction in these areas is, at the present time, being carried on by the individual teachers in each classroom with more or less success.

## PRACTICAL ARTS

This year, as last, the needs of the students of the seventh and eighth grades are being satisfied with a program of instruction in the field of Home Economics for the girls and Manual training for the boys. We are fortunate in having Mrs. Martha Evans as the instructor in Home Economics. She comes to us once a week on Tuesday afternoon. Her program has been divided into two parts. The first part of the year has been devoted to instruction in the arts and practices of simple cooking. The latter part of the year will be devoted to instruction in sewing.

The boys of the seventh and eighth grades have an equal amount of time allotted to them for instruction in hand-work, the utilization of hand tools, and the manipulation of machine tools in the production of several items constructed of wood.

There has been some attempt made to correlate mechanical drawing with the manual training, but due to the lack of the necessary instruments the results are still in a somewhat hopeful stage.

Mr. Ralph Steeves, who has had some very considerable experience in shop work is conducting the classes in manual training with the boys.

#### PHYSICAL EDUCATION

The physical education program this year has attempted to achieve somewhat of a balance between organized sports

In general the atheltic program has centered about the organized sports of basketball, football, and baseball. Throughout the past year there have been several games played in each of these sports with many of the surrounding schools from neighboring towns.

While these organized sports have been utilized principally by the members of the upper grades, the members of the lower grades have not been neglected. All grades have met both in their classrooms and on the fields out-of-doors, as well as in the gymnasium for exercises and drills designed for muscle building, increased coordination, and for posture building.

#### ASSEMBLY PROGRAMS

This year, as last, much interest has been shown in the various assembly programs that have been arranged. Thus far there have been several outside speakers that have been of general interest to the members of the school. It is hoped that for the remainder of the year that there will be a number of speakers at general programs that may be drawn from the members of the local community who are experts in their particular fields. It is hoped that through this means a deeper insight and a greater awareness of the community's problems may become more apparent.

#### SCHOOL LUNCH PROGRAM

A program of this type is a needed and worthwhile asset to any school. The program has been functioning with

the greatest of success. At one point during the program of the year it was felt that an increased cost would be justified inasmuch as the government reimbursement differed by one cent from that of last year, while the cost of purchasing milk remained the same. However, the differences were resolved and the cost of the lunch program this year remains the same as last.

The preparation of the noon lunch and the serving are ably carried out by the school dietitian, Mrs. Margaret Bureau. The meals provided are tasty, nourishing, and appealing not only to the inner man but to eye as well.

One of the problems of maintaining a smoothly operat-

#### SUPERVISION

ing school is that of maintaining adequate supervision during the school session both within the building, and on the school grounds. The Rollinsford Grade School has solved this problem with some degree of success by assigning each of the teachers in rotation to be the duty teacher of the day. It is the function of the duty-teacher to oversee the movement of the classes in and about the building, to supervise the lunch room at noon hour, and to supervise such playground activities or indoor noon-hour activities as may occur.

It is felt that through this method adequate supervision of all activities is maintained. Inasmuch as two separate recesses are operated, the supervision of these recesses is split between the duty teacher and Mr. Steeves and Mr. Hatfield, both men teachers alternate weekly in the control of the classes.

#### EDUCATION WEEK

Education week this year was observed by opening the school in an evening session for the parents only. The evening was called a Parent's Night, and the program consisted of a series of brief talks by the Principal and the

Superintendent. These were followed by two movies both of which dealt with the educational problems that are encountered today. The final period of the evening was devoted to private conferences between the parents and the teachers and were conducted in the classrooms. There was on display for the benefit of the parents samples of the daily work of the pupils.

It is felt that this was a successful program inasmuch as it was well attended and productive of a great deal of beneficial discussion.

#### FACULTY

It is apropos at this time to make some mention of the Rollinsford Grade School faculty. Beginning with the fall term were three of the former staff of teachers. These were Miss Anne Brown, Miss Bernice Doherty, Miss Edna Ordway. In addition to these were three new teachers. They were Miss Mildred Burns, Mr. Ralph Steeves, and Mr. Lewis Hatfield.

With such a large turnover, amounting to 50% of the teaching staff, there inevitably results some confusion and a period of adjustment. It may be reported that the faculty is working in an atmosphere of harmony and cooperation.

By examination of the following Faculty Data Sheet, the teaching assignments and other pertinent data may be obtained.

It should be noted that the members of the faculty are not in a static position in regard to professional improvement. Both Miss Brown and Miss Doherty have availed themselves of opportunity offered for professional advancement by successfully completing the course "Psychology—The Social Development of the Child" offered by the University of Maine at South Berwick, Maine. Miss Ordway has successfully completed the course "Remedial Reading" offered at Kittery, Maine.

FACULTY DATA TABLE

Teacher's Name	Grade Teaching Assignment	Degrees Held	Experience Rollinsford	Elsewhere	1949-50 Salary
Bernice Doherty	2, 3	Perm. Cert.	38	0	\$2400
Anne Brown	1	Perm. Cert.	38	0	2400
Edna Ordway	4	Perm. Cert.	6	7	2400
Mildred Burns	5, 6	B.A. in Hist.	0	0	2000
Ralph Steeves	7	B.S. in Ed.	0	0	2200
Lewis Hatfield	8	B.S. in Ed. Ed. M.	0	9	2800

## OTHER ACTIVITIES

Throughout the year when the weather has been favorable, various classes have taken field trips and nature walks. It is felt that this device is a worthwhile one in that it aids the pupils to become more familiar with the community, its offerings, services, and its problems.

Throughout the year an informal guidance program has been carried on. This type of program has been confined more particularly to the upper grades rather than the lower. Thus far the program has included open discussions, oral talks, films, and radio programs. All of these have been designed to include one or more phases of guidance.

It is hoped that this program may be expanded in the future to include the use of aptitude, ability, interest tests in order that more successful guidance in educational and vocational choices may be given.

## LIBRARY

Since the beginning of the school year in the fall, Rollinsford Grade School has been endeavoring to build its library facilities to a more efficient point.

The School has been fortunate in receiving gifts of books

frob three outside sources. It should be acknowledged here that both the faculty and the student body are very appreciative of the gift of thirty books from the private library of Mr. and Mrs. Ralph Steeves. Likewise, our thanks and appreciation are given to the Saugus Public Library of Saugus, Massachusetts for the gift of fifty books that had been discarded from their shelves. Thanks is also given to Mr. Hatfield for his gift of twenty-five books to the school library and to Mrs. Fred Green for ten library books, and to the Newburyport Public Library for thirty-two copies.

These gifts have been composed of all types of books both fiction and non-fiction and of recreational and reference type reading. They are suitable to all grades from the first to the eighth.

The thanks and appreciation of the Rollinsford Grade School should also be given to Miss Ella Stevens who presented the school with eight industrial displays. These displays have been found to be of great interest and educational value particularly among the members of the upper classes.

#### RECOMMENDATIONS

Before coming to the end of this report, it may be well to include a section on recommendations. It should be realized that no matter how good a system of education may be in operation that there are always some areas that may be improved. With no thought of criticism, and a hope that these may be in use in the near future, the following recommendations are made:

- (1) A program of integrated instruction in Art and Music be instituted in grades one through eight.
- (2) Continued improvement of the playground area behind the school, and the installation of additional playground equipment.

- (3) A program of dental care be begun in all grades by arrangement with a competent local dentist or a visiting dentist who would perform the necessary work at cost or reduced prices.
- (4) A program of library expansion based on the needs and desires of the individual pupils of the school.
- (5) A more adequate testing program for all grades that would portray as accurately as possible the aptitudes, abilities and interests of the older pupils along vocational lines.

#### CONCLUSION

The faculty of the school is interested in the present education and the ultimate success of each child in his chosen field of endeavor. Daily it strives toward the ultimate goal of satisfactory social adjustment for each incoming child, each member of the school, and each of the graduates.

May I, at this time, offer the thanks of the teachers and the principal to the superintendent, the members of the school board, and the citizens of the town of Rollinsford for their help, understanding, guidance, and cooperation in all matters concerning the Rollinsford Grade School.

Respectfully submitted,

LEWIS W. HATFIELD,

*Principal.*

## REPORT OF SCHOOL NURSE

---

TO MR. JONATHAN OSGOOD, *Superintendent of Schools:*

I herewith submit my third annual report as school nurse.

### *Rollinsford Grade School    St. Joseph's School*

Pupils examined . . . .	164	94
Defective teeth . . . . .	46	21
Defective tonsils . . . .	5	1
Defective eyes . . . . .	8	9

I would like to state that poor vision has been corrected with the use of glasses in seven of the above cases and three tonsil corrections. I want to thank the parents for their cooperation in having the defects corrected. It is so important to the school child during his or her early years of education.

On November 2, 1949, a Tuberculin Patch Test for the disease of tuberculosis was held at Rollinsford Grade, and St. Joseph's Schools with a total of 250 patches being placed on the forearm. We had two pupils from the Rollinsford Grade School, and four pupils from St. Joseph's School showing positive reactions from the test. These six pupils all had chest X-rays with all results proving satisfactory. Miss Loretta Landry, R.N., the State Tuberculosis Nurse, stated that six positive reactions was a very low percentage.

November 29-30, 1949, Audiometer tests were given in both schools. One hundred and sixty-five pupils were examined with fifteen defects. This test included pupils from the fourth through the eighth grades.

My calls have averaged at least once a week to each school. I have enjoyed my work in the schools this year and feel as though more has been accomplished this year in regards to the health of our school children.

I wish to express my appreciation to Mr. Osgood, Mr. Hatfield, Father Burque, and all the teachers in both schools for their many acts of kindness and help they have given me this past year. I am deeply grateful.

Respectfully submitted,

MRS. VINA SHAW, R.N.

*School Nurse.*
